

## Message from Principal

### **Character lies in the will and not only in the intellect**

Higher Education Institutions are the best platforms which take care for development of intellectual property, imbibe the ethical and moral values leading to character building and thus increasing will power of every individual youth.

I am indeed very happy to take charge as a Principal of ICLES' Motilal Jhunjhunwala College, a leading higher education institute in the smart city, Navi Mumbai. This city has been developing for last four decades and has accommodated people from all corners of the nation; our institution reflects the similar philosophy and highlights the diverse cultural tradition evident in our college. To cater diverse need of students and their overall development the teaching and administrative staff untiringly share contribute their efforts with the able support and guidance of our management.

The infrastructural development, academic excellence of teachers, support system, administrative support and parental care will certainly elevate this institute at the height of excellence.

Quality is always an ongoing process and to sustain it, we all need to work in unison and with optimistic approach. This will help the next generation to achieve their goal and fulfill dreams which will eventually contribute towards character building, personality development of students in particular and national development in general.

I take this opportunity to express my deep sense of gratitude to Shri. R.K.Jhunjhunwala, President & Shri. Sitaram Agarwal, Vice President and Treasurer and other esteemed members of ICL Education Society for providing me an opportunity to work for the noble cause of nation building.

Dr. P.N.Pabrekar  
Principal
